DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-11, 19-25 are rejected under 35 U.S.C. 103(a) as obvious over Rosenfeld in view of Cowles (#4,896,707) as discussed in the previous office action. Regarding the relationship between the longitudinal axis and the attachment means, Rosenfeld appears to show in the figures that the attachment means to be generally parallel to the longitudinal axis but does not specifically disclose this in the specification. However, Cowles teaches the concept of applying an attachment adhesive strip at an oblique orientation to the longitudinal axis as shown in the figures. Cowles discloses that oblique orientation is to use less adhesive means and for efficiency reasons. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to provide Rosenfeld with attachment means as taught by Cowles for better efficiency.

2. Applicant's arguments with respect to claims supra have been considered but are moot in view of the new ground(s) of rejection. Applicant has changed the scope of the claim by deleting the alternative limitation of the "having a major axis longitudinal direction". By deleting the alternative limitation, the claim has become more narrow causing the examiner to make a new ground of rejection. Regarding the product by process limitations, the examiner maintains the position set forth in the previous office action as governed by MPEP 2113.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
